

TAURUS[®]

MAKING BETTER GUNS.™

2013 PRODUCT CATALOG

◀ Introducing the All-New Millennium G2. Available in 9mm and .40 cal.

We are firmly committed to improving the overall Taurus experience. From groundbreaking product design to superior customer service to quicker response times, we strive to exceed your expectations every step of the way.

My goal is for Taurus to become the most approachable, trustworthy firearms manufacturer in the industry. I'd say we're well on our way.

As you browse through the new Taurus Product Catalog for 2013, you'll find we continue to introduce some of the most innovative handguns on the market.

The new Millennium G2, for example, is our latest lightweight, polymer-frame pistol designed specifically for the concealed carry lifestyle.

With the growth of concealed carry among new and existing gun owners, we're manufacturing firearms that you can rely on—and that you'll feel comfortable carrying every single day.

Welcome to the new Taurus. We are making better guns ... and making the gun industry better in the process.

It's our challenge. It's our responsibility. It's my promise.

TAURUS SECURITY SYSTEM®

The patented Taurus Security System gives all Taurus firearms an extra level of security with the simple turn of a key. This system is completely inconspicuous and can be utilized at the owner's discretion to prevent unauthorized use of a Taurus firearm. The Taurus Security System is included at no extra charge and comes with two keys.

Security Engagement (Locked): Insert the key into the lock mechanism and turn clockwise until a click is felt or heard and the "lock button" protrudes. The firearm is now inoperable.

Security Disengagement (Ready-to-Fire): To place the firearm in a firing condition, insert the key into the mechanism and turn it counter-clockwise. "Button" recedes when unlocked. The firearm can now be fired.

MAKING BETTER GUNS

We genuinely believe we manufacture firearms better than anyone else. Unlike other competitors that are merely "assemblers" of firearms, we manufacture everything: from the firing pins to the magazines to the cutting tools.

Every piece and every part are owned by Taurus. This results in higher tolerances, lower costs, faster prototypes and breakthrough innovations. It's the undeniable advantage that only Taurus can offer.

FS SERIES

High-performance firearms without the high price tag. For the cost-conscious buyer, finding the right handgun has never been any easier or more affordable. At Taurus, we've engineered the new FS Series with your personal safety—and budget—in mind. With 11 custom models to choose from, the FS Series enables you to invest in a dependable, wallet-friendly firearm without sacrificing quality, features or service.

85 FS

Ultra-fast. Ultra-reliable. Ultra-lightweight. It's no wonder the 85s are our most popular family. We pack them with a combination of customer-requested features and pair them with the .38 Special +P—making them powerful, easy to carry and lightning-quick to use. To many of our friends in Law Enforcement, these are must-have revolvers.

RAGING JUDGE® MAGNUM

If you thought the Taurus Judge® line couldn't get any better, you have to see this. The Raging Judge® Magnum shoots the .454 Casull round in addition to delivering the same popular combo revolver of the original Judge models, and packs a giant six-round cylinder. Besides added capacity, the Raging Judge® features the famous red "Raging Bull®" backstrap for added cushioning and is available in both 3-inch and 6.5-inch barrels. We have finely tuned the rifling to spread the shot pattern at close quarters or to guide the .45 Colt bullet to the target. The "Taurus Judge®" is a decision-maker that lays down the law.

FEATURES

Fires 45 Colt, .454 Casull, .410 GA. 3-inch Magnum shotshell or .410 GA. 2.5-inch shotshell

MODELS 92/100

In 1980 we purchased the Beretta factory in Sao Paulo, Brazil “lock, stock and barrel” and immediately sought to improve on the classic Beretta design, resulting in the acclaimed Taurus Model 92 and Model 100 pistols. Today, we’re taking these pistols further than they’ve ever been. Most notable is Taurus’ drop hammer forged ordnance grade alloy frame. Other innovations include a three-position frame-mounted ambidextrous safety that is more secure than a slide mounted safety, and allows for a classic “cocked and locked” mode as well as a functioning DA decocking lever. Available with fixed sights, you’ll be able to face any situation without compromise.

MODEL # 92B
See specs page 37

MODEL # 100SS-16
See specs page 37

FEATURES

- Available in 9mm and .40 cal.
- Blue and matte stainless finish
- Loaded chamber indicator for added safety
- Two blue steel 16-round magazines come standard
- Integral accessory mount rail for lights or lasers
- Frame mounted ambidextrous safety/decocker
- Taurus Security System®

WARNING concerning ammunition marked “+P” and “+P+”.

It seems some ammunition manufacturers and reloaders are in a horsepower race to see who can develop the most case pressure and muzzle velocity with little regard for practicality or safety. Some of these loads exceed common sense and can virtually tear metal apart. Taurus Firearms rated for “+P” ammunition are rated for Sporting Arms and Ammunition Manufacturers Institute (SAAMI) compliant “+P” ammunition. **SAAMI does not recognize any “+P+” ammunition at all. It is DANGEROUS to fire “+P+” ammunition in any Taurus firearm and if you do so you may be seriously injured or killed.**

In addition, it seems some ammunition marked “+P” is not SAAMI compliant either. **There are only four calibers that can carry a “+P” rating from SAAMI.** They are 38 Special +P, 9mm Luger +P, 38 Super Automatic and 45 Automatic +P. **There are no other SAAMI approved “+P” loads.** Any ammunition in any other caliber marked “+P” is not SAAMI compliant, may be dangerous and should not be used.

DANGER FOR “+P+”

Never use “Plus -P -Plus” (+P+) rated ammunition in any Taurus firearm. The Sporting Arms and Ammunition Manufacturers Institute (SAAMI) does not recognize such ratings and such ammunition can be very dangerous. Firing such ammunition can cause catastrophic failure in firearms resulting in serious bodily injury or death.

WARNING FOR “+P”

Only fire SAAMI rated Plus P (“+P”) ammunition in Taurus Models designated by Taurus for +P use as below. Firing +P ammunition in other Taurus products may be dangerous and can result in serious bodily injury or death.

- Model 85 small frame revolver in 38 Special.
- Model 850 small frame revolver in 38 Special.
- Model 851 small frame revolver in 38 Special.
- Model 85 Polymer small frame revolver in 38 Special.
- Model 82 medium frame revolver in 38 Special.
- Model 817 medium frame revolver in 38 Special.
- All firearms chambered in 38 Super Automatic.
- All firearms chambered in 45 Automatic. (ACP)
- All firearms chambered in 9mm Luger.

WARNING

Even if your Taurus firearm is rated for Plus-P (“+P”) ammunition, such ammunition generates pressures significantly in excess of the pressures associated with standard ammunition. Such pressures may affect the useful life of the firearm or exceed the margin of safety built into many firearms. Unless you need +P ammunition, do not use it, particularly for practice.
